As the semester wraps up and you finish your final assignments, make sure to check your work for APA Style. Here are a few reminders about resources that can help:

- The *Publication Manual of the American Psychological Association* (7th ed.) is the best tool to have at your fingertips. The APA manual details everything you

- need to know from writing style to in-text and reference list citations.
- The library's research guide, [APA Style, 7th edition - Citing Sources](#), explains and addresses the major components of APA Style. It includes advice about [how to format your paper](#), numerous examples of how to cite your sources ([both in-text and in the reference list](#)), and more.
 - The [APA Style website](#) also provides useful information including the [Style and Grammar Guidelines](#) section and the [APA Style Blog](#), which is run by a team of experts and addresses tricky questions about how to use APA correctly.

Please feel free to reach out to the library if you have any questions or find yourself struggling with a tricky citation!

Questions? Email reference@regiscollege.edu or schedule an appointment using the [Research Consultation Request form](#). Library hours can be found on the [library's website](#).
