Did you ID? Update your demographic information today!

Calling all students! It's time to update your contact and demographic information. This means your current address, ethnicity, race, language, and gender.

Self-identification and updating your contact information can be done quickly through [Self-Service and Regis Hub](#).

When you report your race, ethnicity, and gender, you help us have a clearer picture of the rich diversity of our community. When we have a full picture of our community, we are better able to design and implement programs and resources that are relevant to our entire student body – we reduce the guesswork and the assumptions. Self-identification also helps us identify any gaps in student retention and success. This is one of the key goals in our [Institutional Action Plan to Address Systemic Racism](#).

We know that you may not see yourself in any of the options. We ask that you do your best to find an option that works best for you. If you really can't find something that reflects your identity, you have the option of declining to self-ID.

Questions or issues updating your information? Contact the ITS Helpdesk at helpdesk@regiscollege.edu.
