Technology

At Regis College

At Regis we understand that starting out in a new place can be nerve wracking, especially where technology is concerned. We want you to be as comfortable as possible using RegisNet, and encourage you to use the resources we have available. The ITS/Office of Communications provides web services and host our web sites. For questions and assistance please contact the ITS Helpdesk at 781-768-7177.

!!To receive access to Regis Technology you must sign our Technology Ethics and Privacy Agreement

Please go to http://www.regiscollege.edu/ethics.aspx to “sign” the on-line form.

Once you sign the technology agreement, Regis will send you by regular mail your log-on and password (you may also opt to pick up this information at the ITS office, College Hall room 133). You will also receive a set of instructions for logging-on for the first time. YOU MUST LOG-ON to your new Regis email account FIRST. You will be required to change your password and log-on there. This will establish it for all of our technology access (except SmartThink).

The sites hosted at Regis College are as follows:

http://www.regiscollege.edu - our external web site, the official Regis College presence on the internet.

http://regisnet.regiscollege.edu - our internal website. Your network login allows you to access RegisNet from anywhere on and off campus. From here you can get to Regis Email, RegisAccess, ITS, the Library Site, Moodle, Smartthink and more.

http://mail.regiscollege.edu* – Regis Email is a free email account given to every student and works like other email accounts such as G-mail. Regis email is the official medium for campus communication. Unless you give it out (which you may choose to do), only members of the College community have access to this address. Faculty and administrators will use your Regis address to send you important information. You should check your mail box regularly. * If you wish to, you may forward your Regis email to another account.

*There are two methods to do this:

Follow these instructions if you are in a computer lab on the Regis Campus: forwarding Regis email from on-campus

Follow these instructions if you are off-campus: forwarding your email from off-campus
http://moodle.regiscollege.edu/login/index.php – Is a web-based learning and course management tool being used in many of Regis’ classes. This tool offers online access to course syllabi, announcements, requirements & readings. It enables students to submit assignments and participate in online discussions. Not all courses use Moodle – your instructor will inform you if it is being used in your class.

https://regisaccess.regiscollege.edu – This site is dedicated to your administrative records. From here you can register for classes, view grades, view course schedules, view your bill & see your financial aid information.

www.smarthinking.com SMARTHINKING is a tutoring assistance program available to Regis students. Smarthinking offers students access to free, live, 24/7 tutoring assistance that is facilitated through online discussion boards. Interact with a live tutor with questions about Math, Bilingual Math, Biology, Chemistry, Physics, Economics, Accounting, Statistics, Spanish, Writing, Anatomy & Physiology, Organic Chemistry, and Introductory Finance. Submit a Question and receive a reply from a tutor, usually within 24 hours. Submit your writing for any class to our Online Writing Lab for editorial assistance. To login to Smarthinking go to the above URL and enter your assigned user name and password. Your will be prompted to change your password at this point.
