Career Corner

Welcome to the Spring Semester, Graduate Students!

Graduate Career Planning is thrilled to offer you a new online career tool that will enhance your time here at Regis by becoming active in a career community geared toward your program. To join this Moodle resource just click on: "[Career Corner for Graduate Students!](#)" and log-in to the site as you normally would.

This tool will allow you to opt-in to the tool and interact with other students in your program along with Graduate Career Services on relevant topics in your field: professional organizations, resume/cover letter samples, salaries and career pathways within the field, and a discussion board for students to post questions, share resources they find that will assist others in their careers, and add other resources to this open-source forum.

Graduate Career Planning will be awarding some Regis swag to the first 50 students who join Career Corner for Graduate Students!

I look forward to hearing from you. You are always welcome to schedule an individual appointment with me to discuss your career needs.

Advising Matters

Welcome to the Spring 2020 semester! I hope it is going well so far.

Remember that you can view your degree program requirements and track your progress online. In fact, I encourage you to do this at least once a semester.

To check your degree audit:

- Log into Regis Access
- Once in Regis Access, click on the Student Menu tab, on the right
- Choose “Degree Audit” under the *Academic Profile* tab
- Or watch a [Degree Audit](#) video tutorial

If you have any questions about your degree audit, contact your academic advisor or Joanne Cardolaccia, Director of Graduate Student Services and Advising at joanne.cardolaccia@regiscollege.edu

Communication is key! While it is important to review your degree audit, it’s also valuable to check in with your academic advisor. If you haven’t checked in with your advisor recently, make an appointment to do so.

Good luck in your studies this spring!
