General Resources for Vaccines and Immunization

Core Clinical & Immunization Guidance

- Centers for Disease Control and Prevention – Vaccine Resources
<https://www.cdc.gov/vaccines/>
 - Immunization schedules (child, adolescent, adult)
 - Vaccine storage, handling, and administration guidance
 - Clinical decision support tools
- CDC Vaccine Administration Resources
<https://www.cdc.gov/vaccines/hcp/admin/index.html>
 - Checklists, training tools, and safety guidance for clinicians

Vaccine Communication & Confidence Tools

- CDC Provider Communication Resources
<https://www.cdc.gov/vaccines/hcp/resources/index.html>
 - Talking with patients about vaccines
 - Strategies for addressing vaccine hesitancy
- Immunization Action Coalition (IAC)
<https://www.immunize.org>
 - “Ask the Experts” Q&A
 - Patient handouts and clinic-ready materials
- World Health Organization – Vaccine Safety & Communication
<https://www.who.int/teams/immunization-vaccines-and-biologicals>
 - Global vaccine safety and confidence resources
 - Implementation and communication guidance

Global Immunization & Policy Context

WHO Vaccine Introduction Toolkit

<https://www.who.int/tools>

Guidance on vaccine rollout, delivery systems, and uptake strategies

Global best practices in immunization programs

Evidence-based vaccine science and communication research

Patient Education Materials

CDC Printable Vaccine Information Sheets (VIS)

<https://www.cdc.gov/vaccines/hcp/vis/index.html>

- Easy-to-share vaccine-specific fact sheets
- CDC Multilingual Vaccine Materials
<https://www.cdc.gov/vaccines/partners/communication-resources.html>
 - Patient education in multiple languages
