*“Vaccines at a Crossroads: Global Challenges,  
Local Realities, and the Future of Immunization”*

## **Nursing-Focused Vaccine Resources**

### **Nursing Practice & Clinical Support**

- CDC Vaccine Administration Guidelines for Health Professionals  
<https://www.cdc.gov/vaccines/hcp/admin/index.html>
  - Safe administration practices
  - Documentation and storage protocols
  - Role clarity for nursing teams
- CDC Immunization Schedules (Clinical Decision Support Tool)  
<https://www.cdc.gov/vaccines/schedules/>
  - Quick reference for bedside and outpatient settings

### **Communication & Patient Trust (Core Nursing Role)**

- CDC Vaccine Communication Resources  
<https://www.cdc.gov/vaccines/hcp/resources/index.html>
  - Techniques for addressing hesitancy with empathy
  - Evidence-based messaging approaches
- Immunization Action Coalition Patient Handouts  
<https://www.immunize.org/handouts>
  - Ready-to-use educational tools for patient teaching

### **Nursing Leadership & Advocacy Context**

- World Health Organization – Immunization Workforce & Training Resources  
<https://www.who.int/teams/immunization-vaccines-and-biologicals>
  - Emphasis on workforce development and frontline delivery systems
- CDC Vaccine Equity Resources  
<https://www.cdc.gov/vaccines/health-equity/>
  - Tools to support equitable vaccine delivery in diverse populations

### **Resources from Non-Governmental Sources**

- [Immunization Action Coalition](#) – handouts and “Ask the Experts” vaccine Q&A
- [Johns Hopkins Bloomberg School of Public Health Vaccine communications resources](#)
