## Proving Financial Support Graduate International Students 2023-2024

You must be able to prove that you will have the financial support to cover your minimum annual expenses for your period of study.

The US Embassy or consulate requires documentation that funds are available to cover one year’s minimum expenses and that there is sufficient evidence that equal amounts will be available for every year of your program. Our requirements are the same for issuing your I-20 form.

Furthermore, future employment on campus cannot be used as evidence of financial support, unless it is part of a financial aid package.

## **Online Programs**

International students are eligible to apply to our fully online programs. Since these programs are offered either in an online synchronous or asynchronous modality, international students are ineligible to receive an F1 visa for their studies. However, they can complete their studies remotely from their country of residence. International students who apply to a fully online program DO NOT need to submit proof of financial support. The following online programs are eligible for international students:

- MA in Strategic Communication
