

Bachelor of Science Nursing Transfer Admission Policy

Transfer Admission Policy:

As outlined in the College Academic Catalog, Regis encourages transfer students to apply for admission and welcomes the diversity that transfer students bring to Regis. Courses related to a liberal arts and sciences degree can be applied to the Regis bachelor's degree. Transfer credits are evaluated individually and awarded for courses that are similar in content and depth to those offered at Regis. Every attempt is made to transfer the maximum number of credits earned prior to a student's admission to Regis. This applies to non-nursing courses.

All conventional undergraduate students must enroll in 54 Regis credits to be granted a Regis degree. Regis College **does not** accept any nursing courses for transfer credit.

Transferring into the Nursing Program:

Transfer applicants' admission requirements include:

- Have at least a B (3.0) cumulative grade point average (GPA).
- Have an overall combined GPA of at least a B (3.0) or higher in the following sciences: BI 105 Anatomy & Physiology I; BI 106 Anatomy & Physiology II; BI 108 Microbiology; BI 212 Pathophysiology; and CH 105 Intro to Chemistry, Nursing.
- A grade of at least a B- (2.7) or higher in each of the following courses: ID 230 The Interdependence of Healthcare Professions in the US and NU 305 Foundations of Nursing Practice, and NUTR 205 Nutrition along the Health Continuum.
- A grade of a C (2.0) or higher in all other non-nursing prerequisite courses.

Transfer Admission Requirements (Internal):

Undergraduate students already enrolled in another major at Regis College, who wish to change their major to Nursing are subject to all transfer policies currently in place for the external transfer student admission application.

- Internal applicants will first meet with Regis Advising to complete the transfer application form for admission to the Undergraduate Nursing program.
- Regis Advising will contact the Office of Admissions for documents needed to confirm or add information on transfer application, completing an initial review of the form to ensure the applicant meets the minimum criteria for admission into the Regis Nursing program.
- Regis Advising will forward the Internal Transfer form to the Associate Dean for PreLicensure Nursing who will schedule a meeting with the student to take place within 2 weeks of receipt of application.
